

Black Grid SCREEN

S-CK SERIES

Designed to be ambient light rejecting screen

Changhong S-CK series, mimic the flat panel look with a thin bezel frame, designed for ultra-short throw projectors, the fixed frame screen and rollable screen features larger size and more application options for home theater, classroom and corporate training room.

With the advanced optical lens system, S-CK is easy to reject ambient light from Ceiling(up), and present the images light from projector. The lens system consists of multiple layers, each of them has the property to reflect angular light, the combination of these layers allows S-CK to focus on reflecting projector light.

The advantages of ambient light rejecting screen is that you don't have to worry about environment distraction, with a 170 degree viewing angle, the audiences can enjoy the images full brightness from everywhere in the living room.

Pro trim black grid screen, multiple layers and a certain degree angle makes it an angular reflective surface.

Surface Characteristics

- Ambient Light Rejecting Surface
- Front Projection Material
- Washable and Mildew Resistant
- Flame Retardant
- Support 4K Front Projection
- Ambient Light Rejecting >90%
- Screen Gain 0.6
- 170 degrees viewing angel
- Ultra-short throw projector

Foldable Model

- S100CK(100"), S120CK(120")
- Detailed screen size & net weight
100": 2245*1275*25, 9.06Kg
120": 2686*1524*29, 15.5Kg
- Packing sizes & gross weight
100": 1505*300*170, 12.88Kg
120": 2750*290*150, 23.5Kg

Fixed Frame Model

- S120CKH(120")
- Detailed screen size & net weight
120": 2692*1532*20, 33.5Kg
- Packing sizes & gross weight
120": 2830*1670*160, 74Kg

Optional fittings

- Ceiling accessories for projector
WSD-DW10/W: 60-100cm
WSD-DW15/W: 90-150cm
- Wall accessories for projector
WSD-ZXC03: 260-450cm, 80-100"
WSD-ZXC05: 365-635cm, 90-135"
WSD-ZXC08: 600-900cm
